

Aseye Amenuveve Gbagbo

Data Science Graduate Student | Data Management & Business Analytics

Amrahia, Accra | 020 152 2942 | aseye.gbagbo@gmail.com | Portfolio: leeseey15.github.io/portfolio | GitHub: github.com/leeseey15

Professional Summary

Graduate student completing an MSc in Data Science (University of Ghana), with three years of professional experience spanning business process analysis, marketing and campaign analytics, data management, and digital communications across banking, marketing consultancy, and academic settings. Proficient in Excel, Power BI, Python, and SQL, with hands-on experience turning raw data and manual processes into clear, actionable insights and automated workflows. Portfolio (linked above) includes a predictive-modeling thesis project, a 13-phase data engineering pipeline, and formula-driven Excel/SQL/Power BI analyses. Detail-oriented and dependable, with a growing track record in business analytics and process improvement.

Key Skills

- Data & Analytics: Excel, Power BI, Python, SQL, data management, dashboards and data visualization, campaign and marketing analytics, process mapping
- Writing & Communication: Personal/creative writing, correspondence drafting, proofreading and editing, minute-taking and reporting
- Digital & Coordination: Social media and campaign performance tracking, event and conference coordination, stakeholder correspondence (incl. invitation letters)
- Tools: Excel, Power BI, Python, SQL, Eraser, Microsoft Word, PowerPoint, Outlook; document and records management systems
- Core strengths: Detail-oriented, dependable under deadlines, discretion with confidential information, quick learner, works independently or in a team

Education

MSc Data Science — University of Ghana, Accra (In progress, expected 2026)

BSc Information Technology — University of Ghana, Accra

Certifications

- Business Analytics with Excel: Elementary to Advanced — Johns Hopkins University
- Business Analysis & Process Management — Coursera

Experience

Data Analyst | Laysia Info Consult, Accra

Oct 2025 – Present

- Tracked daily registration numbers against targets across multiple course launches, flagging when performance was falling behind and adjusting outreach strategy in response
- Compared organic (LinkedIn) versus paid (Facebook/Instagram) channel performance to determine which was actually driving registrations, not just engagement
- Analysed the corporate versus individual registration split to guide where outreach effort should be concentrated
- Tracked email campaign performance (opens, clicks, bounces, deliverability) across a 200+ contact database, diagnosing and resolving deliverability issues

- Reviewed paid ad performance (reach, cost, response rate) to adjust budget allocation and campaign objectives mid-flight
- Built and maintained a lead-tracking system from first contact through payment, surfacing where prospects were dropping off and informing real-time decisions on messaging and channel prioritisation

Organizing Committee Member (Volunteer) | Postgraduate Research Conference, Dept. of Computer Science, University of Ghana 2026

- Drafted formal correspondence, including speaker invitation letters, for an academic research conference
- Supported planning and coordination among faculty, students, and external speakers

Business Analyst | GCB Bank PLC, Accra Nov 2024 – Oct 2025

- Interviewed staff across multiple departments to identify pain points and inefficiencies in manual, day-to-day processes
- Mapped and diagrammed current-state workflows using Eraser to visualise how processes worked and where they broke down
- Identified opportunities to automate manual processes and proposed more efficient, streamlined workflows
- Supported the rollout of automated process improvements in collaboration with department staff

IT Service Desk Engineer | GCB Bank PLC, Accra Oct 2024 – Nov 2024

- Provided end-user technical support and training on office applications and systems
- Prepared incident reports for management review and maintained accurate service records
- Managed user accounts, permissions, and system access in line with company policy
